Smart Touch from Kodak Alaris

With Smart Touch functionality from Kodak Alaris, included with most of our scanners, you can eliminate complicated multi-step scanning processes with one-touch simplicity.

Configure up to twenty different functions to fit your specific scanning needs and quickly perform common scanning tasks.

KODAK Info Input Solution:

KODAK Info Input Solution is intelligent document processing software that automates and simplifies the journey from document arrival to data processing - quickly, accurately, and reliably. Simplify document onboarding processes, harmonize data across departments, and scale your business faster with IDP automation that makes sense.

Production capture that makes sense

Whether you're maintaining a busy digital mailroom, archiving sensitive documents, or converting case files, our production scanners are built for today and ready for tomorrow.

CITRIX®

Services from

Kodak alaris

Services that protect and advance your organization

Hardware Services

With a focus on customer productivity, Kodak Alaris repair and maintenance service plans are tailored to maximize your investment for many years to come. Our unique ability to serve customers around the world with responsiveness, technical accuracy, and professionalism that is unmatched in the industry.

Professional Services

What would it mean for your business if information just got where it needed to go, friction-free? If every document, email, or handwritten form were all digitally organized, processed, and delivered right where you need them? That's what our consultants help to achieve – with efficient, cost-effective document processing solutions that make sense.
